

Our Music Matters

In this workshop we talked about the importance of bonding as brothers through music. We discussed the importance of having frequent song rehearsals to learn and review the fraternal hymn and the district songs. We also discussed which chapters have traditional chapter songs and worked on making a new song so that everyone could go home and make a chapter song of their own.

Our Brotherhood Matters

In this workshop we discussed the importance of brotherhood. We took the time out to acknowledge our flaws as individual chapters. We then came together and defined brotherhood in small groups. Also in those small groups, we made a recruitment poster where we identified the different things that we are looking for in brothers and sharing somethings that being a brother can do for you as an individual.
